

**Certificate of a Person as
Sight Impaired (partially sighted) or as
Severely Sight Impaired (blind)**

Part 1: To be completed by the patient or representative

My specific attention has been drawn to the paragraph entitled 'Patient Consent' on page 6 which requires that my express consent is given to the use of my personal information, and to the 'Information for driving licence holders'.

I understand that my council or care trust will arrange for me to be registered with them if I so wish.

Name (please print): **ARTHUR PITTY**

Signature:  ☒

Date: **30TH July 2025**

I am

☒ the patient

☐ the patient's representative.

To be completed by the consultant ophthalmologist

I consider	☒	That this person is sight impaired (partially sighted)
(tick one)	☐	That this person is severely sight impaired (blind)

Date of examination **30** dd) **07** (mm) **2025** (yyyy)

NB: The date of examination is taken as the date from which any concessions are calculated

Consultant's Signature

Consultant's Name

Mr Khalid Ikram FRCOphth

Hospital address

Stepping Hill Hospital, Poplar Grove, Stockport, SK2 7JE

Epidemiological Analysis: please send a copy of all pages (except pages 6 & 7) to The Royal College of Ophthalmologists, c/o Certifications Office, Moorfields Eye Hospital, City Road, London, EC1V 2PD.

Cornea	corneal scars and opacities	H17.		
	keratitis	H16.		

Paediatric	retinopathy of prematurity	H35.1		
	congenital CNS malformations	Q00-Q07		
	congenital eye malformations	Q10-Q15		
	congenital: please specify syndrome or nature of the malformation			

Neoplasia	eye	C69.		
	brain & CNS	C71-72		
	other neoplasia: please specify			

Diagnosis not covered in any of the above – please specify, including ICD10 code (where known)

Please note that this is not intended to be a comprehensive list of all possible diagnoses. It does include all but the rare causes of reduced vision abstracted from the 2001 BD8 part 5 returns. The codes above are ICD10.

Part 3: to be completed by eye clinic staff in consultation with the patient

D. Other relevant factors about the patient (Mark all appropriate boxes)

	Yes
Does the patient live alone?	
Does the patient also have a hearing impairment?	
Does the patient have poor physical mobility?	X
Does the patient have any other medical conditions that may be relevant? <i>Please specify</i>	
Are there any concerns about how the sight problem or the prospect of registration is affecting the patient emotionally? <i>Please make a note of the concerns here:</i>	
Would the patient benefit from a discussion with a rehabilitation worker about practical matters such as mobility?	
Would the patient benefit from a discussion with a rehabilitation worker about practical matters such as daily living skills?	X
Would the patient benefit from a discussion with a rehabilitation worker about practical matters such as employment?	
In the case of a child, would the parent/s or guardian/s welcome guidance about child development, schooling, social implications or parenting?	
Is the patient: Retired ☒ Employed ☐ Unemployed ☐ Child ☐	

In the view of clinic staff these factors require contact with the patient (mark the appropriate box):

- ☐ Immediately (i.e. potential risk factors present)
- ☒ Within the next 2 weeks (in line with Association of Directors of Social Services' national standards)
- ☐ As soon as possible

Certificate of Vision Impairment (CVI)

E. Ethnic origin (This information is needed for service and epidemiological monitoring)

a) White

British	X
Irish	
Other White	

b) Mixed

White and Black Caribbean	
White and Black African	
White and Asian	
Other mixed	

c) Asian or Asian British

Indian	
Pakistani	
Bangladeshi	
Other Asian	

d) Black or Black British

Caribbean	
African	
Other Black	

e) Other ethnic groups

Chinese	
Any other ethnic group	

F. Patient format preferences

The patient would prefer further information:

☒ In large print ☐ on tape ☐ on computer disk

☐ by email to _____ @ _____

The language the patient prefers to receive information in is _____

- See the checklist of people to send copies to, at the top of page 2 of this form. The local council / care trust will be the one which covers the place where the patient lives.
- For epidemiological analysis, please post all 5 pages, including this one to: (This address has been put here for placing in a window envelope)

Moorfields Eye Hospital
City Road
London
EC1V 2PD

About this Certificate

The *Certificate of Vision Impairment* (CVI) replaces form BD8 (1990).

A consultant ophthalmologist may use it to certify that the named patient is eligible to be registered as sight impaired / partially sighted, or as severely sight impaired / blind under the provisions of the National Assistance Act 1948. The patient's local council with social services responsibilities, or its designated agency, will arrange with the explicit consent of the patient, for his or her name to be added to the relevant register. It will also carry out an assessment of needs, and provide information about the services and benefits available to people who are sight impaired or blind.

Advice for patients

Use of this form does not affect the provision of any medical care. It establishes that your consultant ophthalmologist considers you *eligible* to be registered. You will not be added to the local register until you have given your specific consent to the local council or primary care trust.

Registration is voluntary, and you can choose to have your name taken off at any time. Choosing not to be registered may affect your entitlement for some statutory financial benefits. Also, registration means that you will be regarded as 'disabled' under the Disability Discrimination Act (DDA). If you are registered, your local council or its agent should offer you a card confirming your registration.

Your council has a legal duty to advise you of the range of services available to people with sight problems and to carry out an assessment of your needs, irrespective of whether or not you choose to be registered.

If you have any difficulties in relation to these matters, you can obtain independent advice from your local:

- Citizens Advice Bureau
- society for visually impaired people, or
- the RNIB Helpline. Tel. 08457 66 99 99 (local call rate)

This page is for the patient only

Patient Consent

I consent to the personal and sensitive personal information contained within this form being passed to my local council, General Practitioner and Primary Care Trust for referral, assessment and registration purposes; in addition:

- I acknowledge that my information will be used by the Royal College of Ophthalmologists on behalf of Moorfields Eye Hospital NHS Foundation Trust (MEH) and the Department of Health (DH) for epidemiological research and analysis;
- understand that the Royal College, MEH and DH have a duty of confidentiality and duties under the Data Protection Act 1998 towards use of my information;
- understand that I do not have to consent to my information being used for any of these purposes, and can withdraw my consent at any point
- am aware that I will also be given a copy of this form.

Information for driving licence holders

In accordance with the advice shown on the driving licence, any driver with impaired vision should inform the DVLA, who will consider each case on an individual basis. The DVLA can be contacted at:

Drivers Medical Branch
DVLA
Swansea
SA99 1TU

Tel 0870 600 0301 (Monday to Friday 8.15 to 16.30)

First Step CVI Service - Patient Information Leaflet

Supporting people with sight loss across Greater Manchester

Certificate of Vision Impairment (CVI)

If your sight loss reaches certain levels, you can be certified as severely sight impaired or sight impaired by your eye specialist (ophthalmologist). A Certification of Vision Impairment (CVI) form is completed by your eye specialist and a copy is sent to your local council, your GP and to you. As part of a new project this CVI form will also now be sent to the Greater Manchester First Step CVI Service. This leaflet is to inform you about the new service because you have recently received a CVI.

What is the new service?

The First Step CVI Service has been set up to ensure that everybody who receives a CVI has access to support at that time. The team will provide information, advice and guidance to patients and make sure they are referred on to organisations which can help to support them.

How will it work?

The CVI forms will be sent to the First Step CVI Service, and the team will contact patients by phone to explain the service and the support available to them. Patients can also contact the team directly for support at the time they need it (all contact details are below).

Why is the new service necessary?

We know that not everybody who receives a CVI gets information and support at the time of diagnosis. This new service aims to ensure that everyone who needs it is aware of what they are entitled to and where they can go for further support. Sight loss can have a huge impact on peoples' lives and the service aims to ensure people know they are not alone and to help to guide them to the support available.

Who is running the service?

The service is a partnership between the NHS and Henshaws. Henshaws are a Greater Manchester based charity who work with people of all ages living with sight loss.

Your information:

Henshaws will store your information in a secure database which can only be accessed by authorised staff. Henshaws will use your information to provide you with information, advice and guidance, and will only share your information with your consent to make referrals on your behalf.

Henshaws may use anonymised data to improve services for people with sight loss and to inform the wider service provision. We will retain your information in line with our data retention policy for 8 years, you can opt out of the service at any time, by contacting Henshaws; 0300 222 5555, info@henshaws.org.uk or the First Steps CVI team.

You can view Henshaws privacy policy at:

<https://www.henshaws.org.uk/privacy-policy/>

You can view Henshaws website at:

<https://www.henshaws.org.uk/>
