
Mrs Valerie George (4010542209)

About This Certificate

The Certificate of Vision Impairment (CVI) replaces for BD8 (1990). A consultant ophthalmologist may use it to certify that the named patient is eligible to be registered as sight impaired / partially sighted, or as severely sight impaired / blind under the provisions of the National Assistance Act 1948. The patients local council with social services responsibilities, or its designated agency, will arrange with the explicit consent of the patient, for his or her name to be added to the relevant register. It will also carry out an assessment of needs, and provide information about the services and benefits available to people who are sight impaired or blind.

Patient Information

Use of this form does not affect the provision of any medical care. It establishes that your consultant Ophthalmologist considers you eligible to be registered. You will not be added to the local register until you have given your specific consent to the local council or primary care trust. Registration is voluntary, and you can choose to have your name taken off at any time. Choosing not to be registered may affect your entitlement for some statutory financial benefits. Also, registration means that you will be registered as disabled under the Disability Discrimination Act (DDA). If you are registered, your local council or its agent should offer you a card confirming your registration. Your council has a legal duty to advise you of the range of services available to people with sight problems and to carry out an assessment of your needs, irrespective of whether or not you choose to be registered. If you have difficulties in relation to these matters, you can obtain independent advice from your local:

- Citizens Advice Bureau
- Society for visually impaired people
- The RNIB Helpline. Tel 0303 123 9999

Information for Driving Licence Holders

As a person certified as sight impaired or severely sight impaired you must not drive and you must inform the DVLA at the earliest opportunity. For more information, please contact:

Patient Consent for CVI Certification

The patient consents to their personal and sensitive information being stored on the secure eCVI database. **Yes**

The patient consents to their information being passed to the following agencies for referral, assessment and registration purposes:

Local Council **Yes**

General Practitioner **Yes**

Local Clinical Commissioning Group **Yes**

The patient consents to their information being passed to Royal College of Ophthalmologists for epidemiological research and analysis. **Yes**

The patient consents to their contact details being shared with RNIB for information on national and local services. **Yes**

The patient understands that these agencies have a duty of confidentiality and duties under the Data Protection Act 1998 towards use of their information, and that their information will not be shared with third parties except as necessary to manage the CVI process and administer the eCVI database.

The patient understands that they do not have to consent to their information being used for any of these purposes, and that they can withdraw their consent at any point.

The patient is aware that they will also be given a copy of the completed CVI form.

The patient's attention has been drawn to the 'Information for driving licence holders.

The patient understands that their council or care trust will arrange for the patient to be registered with them if the patient wishes.

Consent given on 11 Jul 2025
